### The New Westminster Poguns and the Assay Office.

What is the matter with the *Columbian*? He appears to be troubled with a severe attack of constipation of ideas. The two column and a half article on the Assay Office seems to have exhausted the feeble-minded creature's flow of language. His response to our reply on the same subject is quite up to the standard of vulgarity which the editor has chosen as his specialty, but it is weak—very weak. Had it not been for the *Examiner* flying to the rescue of its quondam friend, we fear that the *Columbian* would have lost its position as the Government organ, *par excellence*, of the Colony. *Apropos* of the *Examiner*. Our friend is falling into evil courses. He has seized the *Columbian's* stock-in-trade, and has gone to lying for a living. Shame on you, sir. We certainly expected better things than to read in your columns that the petition for the continuance of the Assay Office was returned from Victoria "with the names of many bona fide residents attached to it." There wasn't a single genuine name attached. It went back to the "Capital" as innocent of signature as when it left there. The gentleman to whom it was entrusted so informed us, and we have no reason to doubt his word. He was requested, when he left Westminster, to get "a few signatures—just enough to have Victoria put in an appearance" (*sic.*) But he met with no encouragement. The Victorians, like Mr Crease, at the Supreme Court, didn't "put in an appearance." If our cotemporary thinks they did, he had better publish the names of the signers. That is the best way we can see for him out of the difficulty. Having made the assertion, he ought to prove it, and not, like his collapsed neighbor of the *Columbian*, relapse into a sullen silence on the main point at issue. There is one other little matter upon which we wish to examine the *Examiner*. That paper says our statement that gold dust from Salmon river (worth \$12 50 per ounce) was bought by mistake at the Assay office for Cottonwood dust at \$19 per ounce, "is false from beginning to end." He acknowledges that the Salmon River dust was brought to the office, "but it was not bought by the assayer." If it "was not bought by the assayer," pray, then, who was it bought by? One of the clerks, "on his own hook?" It is amusing to notice the shifts to which conscientious friends are sometimes reduced. The *Examiner* thinks that if the office was removed to Victoria, we would have nothing to say against its continuance. Now, this is another "weak invention of the enemy." Have we not said repeatedly that Victoria don't want the office—that Victoria would be glad to see it abolished entirely; but that, if Government is determined, in face of public opinion, to continue it, that it should be removed to Cariboo. This is the "head and front" of Victoria's "offending." She has opposed the expenditure of \$3000 per annum of public money in the maintenance of the institution where it stands, and for this she is bitterly denounced. Well, it's a fortunate circumstance for Victoria that she can survive all such pogrom assaults as those of the combined batteries of the *Examiner* and *Columbian*. The Assay office is an expensive nuisance. It swallows \$3000 annually of the public money that ought to be devoted to more worthy objects. Let the taxpayers ponder upon the wickedness of the Government in squandering the public money upon an utterly useless, worthless object and enduring the extreme humiliation of knowing that the coal-passers and deck-hands employed on the Colonial steaming have "struck"—refuse to assist in working the vessel to Nanaimo, because they have not received a cent of their hard-earned wages for several months! Is such an *expose* not mortifying to the colonists? Is it not humiliating to reflect that the public schools are on the point of being closed because the money voted for their support has not been paid by the Executive, and because there are no funds on hand to purchase fuel? Is it not enough for the Government to know that the Hospitals are languishing for want of pecuniary aid?—that the steamers will not carry our mails because the subsidy remains unpaid? Are all these necessary and beneficial institutions to be allowed to die, while public money is wasted in the support of such unnecessary concerns as the Assay office? And the brazen-faced scribblers at the capital audaciously protest against the removal of the establishment, and insist that it is a "profitable institution" when the Governor's own report of last year showed that it lost \$3000 of the Colonial funds. The triumphant air assumed by the *Examiner* when it points to the "well-signed petitions from the interior" in favor of its continuance, only shows the utter absurdity of the movement. Had the signers pledged themselves to support the establishment in the future that they have shunned in the past, we should have nothing to say. But they have done nothing of the sort. They have asked that it is maintained; but they have neglected to combat they will bring their dust to its *juror* assay. The petitions, therefore, citizens of much waste paper, and the sound and fury temporaries are "full of *signifying nothing*."

HOLLOWAY'S OINTMENT AND PILLS.—Mishaps.—An accident will sometimes befall the most wary. A sprain, a burn, a cut, cannot always be prevented; but a speedy and easy cure may be obtained by the application of this Ointment. It immediately cools the part, sooths the irritated nerves, prevents the blood flowing to the seat of injury, and fully guarding against inflammation and the formation of abscesses. For curing accidental hurts this Ointment surpasses every liniment, lotion or emulsion. It restores soundness to the skin, and firmness to the muscle; it gives freedom of motion once more to stiffened sinews, contracted joints, and strained ligaments. For repairing damage done by external violence, no influence is equally rapid, no agency equally curative.

Prince of Wales' Birthday Races.

Whatever may be the minor differences of opinion, there is a general understanding that holidays made sacred by memorable circumstances are to be respected. The birthday of the Prince of Wales in the City of Victoria was duly respected yesterday. The principal stores were closed and everybody seemed impressed with the idea that the day was one made memorable by the birth of him who is to be next successor of her beloved Majesty the Queen. Believing that this was a holiday, a day of feasting and merriment, the people turned out en masse to have what is popularly known as a good time. Consequently, they repaired to the race ground, and there seemed to be in a state of perfect composure. During the races there was the greatest good order, and all the arrangements were conducted with general satisfaction. The judges deserve great credit for the manner in which they conducted the races, and certainly those who were in attendance honored the memory of the day as became subjects of Her Majesty's Government. With regard to nature's convenience in making the races a success, the day was beautiful—the sun shone brilliantly at about two o'clock, and the track fully met the expectations of the most enthusiastic lover of horse-flesh. The 12th of November will be remembered in the annals of Victoria. Among those on the course we observed Admiral and Mrs Hastings' Chief Justice Needham and many of our prominent citizens, and the Officers and men from the Squadron. The officers of the track were: Judges—Mr Hutchinson and Mr Bunting; Stewards—Lt. Brooke, R.N., and T. Harris, Esq. Clerk—A. T. Elliott, Esq. Starter—M. Wallace, Esq. Following are the races in the order that they occurred:

## FIRST RACE.

The great race for \$1000. One mile, heats. Horses got off together. Was won by Spurlock's Greyhound.

Greyhound ..... 1—1

Volteca ..... 2—3

Boston Colt ..... 3—2

Time, two minutes.

## SECOND RACE.

NAVY RACE—For Purse of \$50. Horses ridden by Gentlemen from the Royal Navy. Single dash of one mile. Seven horses entered. Mr Brooks' Kate withdrawn. This race was won by Williams' Gove nor, ridden by Mr Stock, of H. M. S. Zealous; Vogel's Lucy, ridden by Mr Saville, second; and Green's Jim, ridden by Lord Cecil, R.N., third. The remainder distanced. Time, 2 minutes 2 seconds.

## THIRD RACE.

Scratch between Jackson's Pony and Scratch. Won by former.

## FOURTH RACE.

PRINCE OF WALES' STAKES—For not less than \$60. Entrance money added. Open for all horses on the Island except those named in the great match. Weight for inches, according to English rule:

Carter's Royal Charlie .... 1—1  
Howard's Cafcaulait .... 2—2  
Meyer's Governor ..... 3—3  
Harris' Rough-and-Ready, 4th,  
Punch distanced.

First heat bad start; Howard's Cafcaulait getting away badly. Second heat, betting in favor of Howard's horse. Time, 2 minutes 8 seconds, and 2 minutes 4 seconds (second heat).

FIFTH—SCRATCH RACE—Five horses started—\$250 each. Won by Mr M. T. Johnson's pony, Mr Charles' making a good second.

SIXTH—SCRATCH RACE—Five horses also brought up this race: Joe Bowers' won; Mr Green's grey horse, ridden by Mr Clarke, coming in second.

SEVENTH AND LAST RACE, was a Scratch, ridden by Naval Officers. Three horses ran. The race was won by Mr Bowers' Kate, ridden by Mr S. F. Brooke, R. N.

A HORRIBLE STORY.—Some Indians engaged in fishing from a canoe on the west side of the harbor, just inside of the entrance, a few days ago, profess to have discovered the nude body of a white woman in the water, which at that point is some fifteen feet deep at extreme low tide. They informed the police of the circumstance and three visits were made to the spot indicated; but no traces of the body were found. The savages, however, asseverate the correctness of their report. They say that the hands and feet of the corpse were tied, and that there was a rope about the neck with a stone attached, which anchored the remains to the spot. The feet were turned upwards and when seen were ten feet below the surface of the water. The skin was white and the hair, which they distinctly saw waving with the action of the tide, was long and of a brownish hue. How much credence may be safely reposed in the report, we cannot say, but we presume that further inquiries and investigations will be made.

The CHARGE OF ARSON.—Charles Solomon, arrested on the charge of arson, was yesterday liberated upon his own recognisances to appear again in three days. The evidence for the prosecution is very slight.

The "OLYMPIA TRANSCRIPT" is the name of a paper shortly to be issued at Olympia, W. T., by Gunn & Gale.

The Eliza Anderson yesterday went round to Esquimalt and brought up the California's freight.

C. C. WHEATLEIGH, the actor is in San Francisco.

## A Silly Question.

EDITOR COLONIST.—Will you inform me what height and fighting weight is requisite to be a member of the City Council, so that I may not make a mistake in future in proposing a candidate for the Councillorship.

## Medical.

**AYER'S Sarsaparilla**

FOR PURIFYING THE BLOOD,  
And for the speedy cure of the following complaints:  
Aches and Soreness; Rheumatism;  
Tumors, Ulcers, Sores, Eruption,  
Pustules, Blotches, Boils,  
Blains, and all Skin Diseases.  
OAKLAND, Ind. 6th June, 1855.  
J. C. AYER & CO., sole proprietors.  
I have had what your Sarsaparilla has done for me.  
Having inherited a Scrofulous infection, I have  
suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it was manifested in a soreness of the skin, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from anything. In fact, I was disengaged from all medical aid. It was rejected to read in the Gospel Messenger that you had prepared an alternative (Sarsaparilla), for I knew from your reputation that anything you made must be good. I sent to Cincinnati and got it, and used till it cured me of my disease, in small doses, for about a month over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. But I well believe what I am telling when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully yours,

ALFRED TALLEY.

**St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, &c.**

Dr. J. C. Ayer, M. D. writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of your Sarsaparilla and also dangerous *Malignant Erysipelas* by large doses of your Sarsaparilla, as the common *Erysipelas* by it constantly.

**Bronchocœle, Goitre or Swelled Neck.**

Zebulon Sloan, of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

**Leucorrhœa or White Ovarian Tumor, &c.**

Dr. J. B. S. Chamber of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alternative in the numerous complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Leucorrhœa* and *Uterine Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla steadily taken cured him in five weeks. Another was attacked by secondary symptoms in the form of *Uterine Disease* and again availed a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course with the exception of a few slight ulcers. A man who had been treated for the same disorder by mercury was suffering from the weather that on a damp day she suffered excruciating pain in her joints and bones, and was cut off entirely by your Sarsaparilla in a few weeks. I know from this formula which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me."

Friedrich von G. L. LARIMER, M. D. **Rheumatism, Gout, Liver Complaints, INDEPENDENCE**, Preston Co., Va., 6th July, 1859.

Dr. J. C. Ayer, Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of every effort to get rid of it, until I tried your Sarsaparilla. Once more I am in 99 weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine.

J. FREEMAN.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which caused me much trouble, sleeplessness, and everything failed to relieve me and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, and I can find, under trial, that it is a great remedy. Once more I am in 99 weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine."
